10/ Activity report for 2017

The major focus of Words of Peace Global is to share Prem Rawat's message by supporting events around the world, and by providing clear, effective information on upcoming events and the need for their financial support.

In 2017 Prem Rawat traveled to slightly fewer countries than in the preceding year, but already in June his message had reached 120 million people and at the end of the year this amount had grown to over 410 million, a record year.

South African and Indian events again gathered vast audiences. A new interactive themed event concept was successfully implemented in North America, Europe and Australia. Other countries hosting events included:

- Colombia, where the message of peace strongly supports rebuilding efforts after an exhausting civil war,
- Fiji, where already one-third of the population is acquainted with the message, and
- Japan, in connection with the release of Prem's new book.

Major Indian, European and North American events were also streamed live to those not able to attend physical events, increasing audiences significantly.

Media interviews included the very special 8-minute interview that was recorded via iPhone after one of the events in South Africa. This recording was broadcast by 14 radio stations, some of them airing it more than once, reaching 22 million listeners.
